Breadth Curriculum
English
Maths (<i>including Digital Technologies</i>)
Science
Humanities
Home Group
Sport, Health and Physical Education (SHAPE)
Performing Arts: Music, Dance & Drama
Visual Arts
Spanish / Chinese
Project

At Coburg High School we enable our students to learn in a dynamic and highly-focused learning environment through a comprehensive academic curriculum that offers students every chance to thrive, grow and succeed, underpinned by our four core school values:

Excellence, Curiosity, Integrity & Community.

Our curriculum begins with the **Breadth Curriculum** in Years 7 and 8, where students learn the full range of subjects in the Victorian Curriculum, develop critical and creative thinking skills, build strong ethical and intercultural capabilities, and explore and discover new talents and interests. In Years 9 & 10, students learn the **Pathways Curriculum** to engage in an even wider ranging curriculum, while beginning to specialise in particular subject areas. In Years 11 & 12, students move through into the increasing independence and specialisation of the **Victorian Certificate of Education (VCE)**.

Year 9
Pathways Curriculum
English
Maths
Science
Humanities
Home Group
Health
Electives:
Maths: STEM: Applied Mathematics
